

him, legally, to do. That is what we have to look at and correct. What is a pickle card, for all you people that are wondering? A pickle card is a paper slot machine, basically. It's cardboard, and you tear off tabs. If you get four cherries in a row, or three bells, or whatever, you get a payoff. You pay 50 cents. If you hit the jackpot you might get \$5 or \$10, or whatever. You do, on a paper card, what people in Las Vegas do by pulling the handle. Instead of having the machine turn the cards around, or whatever, you're doing it with a paper card, tearing off papers and see if they're matching things. How did Mr. Filling station attendant handle things? Somebody came into him and they said we will sell you this box for \$10. The box has 100 cards in it. The box has 100 cards in it. Okay? You turn around, you've got your \$10...I mean we've got our \$10, we're Pratt School let's say. You sell your cards for \$1.00 apiece. You've got 100 of them. The payout, total on this, will be \$50. So you sell 100 cards, you get \$100, but the payout that you will have to make is \$50. So what you've done in Nebraska now, and it's legal, quite legal, is you've put anybody that wants to get into this into the paper slot machine business. What I'm telling you is these bingo laws, what you think is grandma playing bingo are involved with this part. We have some major problems in the whole area of gambling we have to look at and see what direction we're going to go. I suggested using this bill as a vehicle, whether we hold it here or the next stage. Okay? I don't even see that we ought to discuss further amendments until we can deal with the whole thing. I know Senator Labedz is talking about holding it till February 13th. I think that is a reasonable approach. We'll have a little more input from the Attorney General's Office by that time, some bills prepared. If somebody wants to do that, I'll sure support it. Just hold up everything and get together. Please realize there are a lot of people legitimately and seriously concerned about the operation of let's say their school or their church that is running on bingo. You're going to have to be careful, let's say, that you are not duped into bringing elements that you would not want at all handling your bingo and running it in your interest to help St. Margaret Mary's. I think we can legitimately and properly take care of St. Maggie, but we can't do it with this bill and the way it is.

PRESIDENT: You have another motion up there?

CLERK: Mr. President, I have a priority motion. Read Labedz motion found on page 379 of the Journal.

PRESIDENT: Senator Duis. What purpose do you arise?

SENATOR DUIS: I thought we were going to do these in order.

PRESIDENT: Well this does have priority. A motion to bracket takes priority over a motion to reconsider.

SENATOR DUIS: All I wanted to know was does Senator Labedz wish this to happen?

PRESIDENT: She filed the motion. Chair recognizes Senator Labedz.

SENATOR LABEDZ: I would suggest that we do bracket this until February 13th. I've talked to a few of the senators. I know that I can get information from the churches and the schools and the organizations, the legitimate organizations in Omaha that have had to close down their bingos because of the competition. By February 13th we should have all the information necessary. Thank you.
